2009 Global Gartner Events

In challenging times, businesses turn to IT to deliver more. More productivity, more capabilities, more cost savings, more business value. Gartner shows you how.

Held throughout the year and around the world, **Gartner Events give you the tools and insight you need to stay competitive in any business climate.**

Symposium/ITxpo®
Our flagship event, the IT industry's largest and most strategic conference, covering the entire spectrum of enterprise IT.

Summit Events
Gartner Summits focus on specific topics, technologies and industries that are top of mind for today's business and IT professionals.

Our events globally align with the following roles:

Application

Business Intelligence & Information Management

Business Process Improvement

CIO

Enterprise Architecture

Infrastructure and Operations

Security & Risk Management

Program & Portfolio Management

Sourcing & Vendor Relationships
